Mobile: +1-425-900-4519

EDUCATION

University of Washington

Pursuing Bachelors of Science in Computer Science

Seattle, WA

Sept. 2026 – Jun 2028

Bellevue College

Associate in Electrical and Computer Engineering

GPA: 4.00 - Summa Cum Laude

Bellevue, WA

Sept. 2024 – Jun 2026

- CS 211: Fundamentals of Computer Science II and CS 210: Fundamentals of Computer Science I.
- ENGR 204: Electrical Circuits, MATH 255: Vector Calculus, and MATH 238: Differential Equations.
- MATH 208: Introduction to Linear Algebra

EXPERIENCE

Bellevue College

Math Lab Tutor

Bellevue, WA

July. 2025 – Present

Oversaw session structure to ensure equitable time management between online and in-person tutees.
Developed tutees skills as independent learners. Specialized in linear algebra and calculus.
CRLA Level 1 Certified.

Daiso Industries Co.

Associate Store Sales

Redmond, WA

Aug. 2024 – Sept. 2024

Managed and assisted in financial transactions alongside organizing merchandize.
Resolved daily conflicts and provided compassionate customer service to ensure satisfaction.

Math Club

Co-President

Kirkland, Washington

Sept. 2024 – Jun. 2026

Managed a 50 member club while overseeing consistent member retention and volume.
Organized structured competition preparation and coordinated competition logistics
Led a math team of 10 competitors placing.

PROJECTS

Denoising Diffusion: Reimplemented DDPM, allowing for image synthesis. Optimized the ELBO to reverse Markov chain diffusion to iteratively reconstruct images from Gaussian noise. Used Python, Pytorch, and Google Colab

Minilistic MNIST: Built a simple MLP neural network utilizing atomic value nodes to classify numbers on the MNIST dataset. Experimented with up-to-date optimizations to achieve generalization and a validation accuracy of 96%.
Used Java. Summary paper available on Github.

osu!web: Contributed to backend querying matches and frontend components. Used Laravel and React.

Roblox Triggerbot: External cheating software utilizing object detection trained on Roblox avatars towards crosshair detection. Used Python.

SKILLS & PASSIONS

Languages & Tools: Java, Python, PyTorch, Git, Linux/Unix.

Passions: Machine learning, linear algebra, distributed systems and networks.

Hobbies: Running, like a lot of running. Feel free to ask about my favourite routes to run.
